Representative Thomas subscribed for \$100,000 and paid \$80,000 in cash, having been allowed a discount of 20 per cent on the par value of the stock.

It is contended by the plaintiff that the Jenifer Furnace Company had no legal right to allow the discount under the law, and it is claimed Representative Thomas is indebted to the corporation to the amount of \$20,000, the amount of the discount allowed him.

Representative Thomas, it is alleged, subscribed for 1,292 additional shares, valued at \$129,200, for which he is still indebted to the company, making a total indebtedness of \$149,200. TITLE INSURANCE STOCKS. TELEPHONE AND GRAPHOPHONE GAS STOCKS. TYPE MACHINE STOCKS.

LEADER WILLIAMS.

John Sharp Williams, Democratic House leader, concluded today the speech on the tariff, which he began resterday. It was the great Democratic tariff utterance of the session, an at-tack especially on the policy of a tariff tack especially on the policy of a tariff that enables the manufactures to exact higher prices at home than he can and does abroad; a defenge of the Democratic program for revenue only.

Mr. Williams said the usual explanation of the cheaper sale of goods abroad than at home was that the manufacturers dump their surplus abroad at low prices to get new markets.

"Our objection," he said, "is first that they never dump them at home ut these low prices, We would like to see some of these cheap things dumped here at the low prices. Then there is the theory also of dumping surpluses abroad.

"But we have found that dumping in practice has been done abroad by an agreement of American manufacturers in an organized way always with reference to maintaining the high prices at home. Yet it is well known that the home demand would increase and absorb what surplus may exist, if the home demand was stimulated by the lower prices that are made to the foreign trade.

"You've got to defend this system or else destroy it. You've got to defend it or else reduce the tariff to such a point that it will not shelter the manufacture in exporting the American consumer." that it will not shelter the manufact in exporting the American consumer
